

District Trends Subcommittee – DISCIPLINE DATA **DRAFT**

February 24, 2015

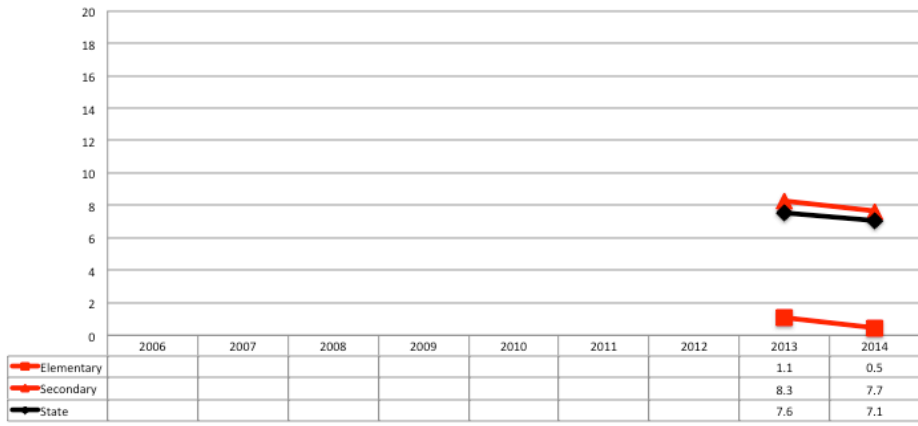

Source of this data: http://profiles.doe.mass.edu/state_report/ssdr.aspx

NOTE: This is in-process because the link above only has data for 2013 and 2014. Discipline data exist on the DOE website by group for entire state, and by district, but not by district and group together. Working on a solution to this.

Also, comparison to State has problems here since State = Elementary + Secondary. Looking into how to deal with that.

Discipline As % Of Population - Male

Discipline As % Of Population - Female

Discipline As % Of Population - White

Discipline As % Of Population - Hispanic / Latino

Discipline As % Of Population - African American / Black

Discipline As % Of Population - Multi-race, Non-Hisp./Lat.
